Employment History

CyberACI

FEBRUARY 2021 — MAY 2022

I worked on a project to build websites for CyberACI and Global Refugee Youth Network using WordPress. It was a great experience to work as a team. Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.

K-Supermarket - Summer Trainee, Espoo

JUNE 2021 — JULY 2021

I made sushi for the buffet and welcomed the customers. It was a completely different experience where I learned a lot about customer service.

Omnia AI-Lab - Trainee , Espoo

AUGUST 2021 — OCTOBER 2021

Our project was to draw the room in 3D with sensor data in the right position so that we could see the situation of the room in real time. My tasks were to display the sensor using Python language. Working in a group helped me learn a lot from others,Worked with an energetic attitude and a commitment to teamwork. I learned new things about Python and the 3D environment.

Tector Oy - Trainee , Helsinki

OCTOBER 2019 — DECEMBER 2019

I repaired Apple MacBook laptops. My task was to replace the macbook's batteries and replace it with a new one. I worked there as a salesperson also and I welcomed the customers and provided them with the exact Apple device for their needs.
